based on a decision of the German Bundestag

# AfriBiRds Project: Survey on Bird monitoring at Biosphere Reserves in Africa

## QUESTIONNAIRE for Biosphere Reserves Managers

### Introduction

**Background:** The survey is part of the project titled "African Biosphere Reserves as pilot sites for monitoring and conservation of migratory birds (AfriBiRds)" implemented by The Nature and Biodiversity Conservation Union (NABU) and BirdLife International Africa Partnership Secretariat (BirdLife) and commissioned by the German Federal Agency for Nature Conservation (BfN) with funds from the German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB). The project started in December 2016 and will end in August 2019. Please find out more details on the project web page <https://en.nabu.de/projects/afribirds/>

**Objective of this survey:** Providing an overview on the status of bird monitoring and conservation in all Biosphere Reserves (**BR**) in Africa. Based on the results, at least two pilot sites will be selected for the development and implementation of a long-term monitoring and conservation framework for common birds with a special focus on migrant species that is feasible for African BR and scalable to the wider landscape. Other BR will be also selected to take part in training activities. The questionnaire will enable to draw a continental state of the art on bird monitoring and identify in the African UNESCO networks key regions for prospective conservation programmes.

**Confidentiality note:** Please note that the information and data provided will be treated confidentially. The final survey report will not include personal information of the respondents. NABU, BirdLife International and BfN will strictly use the results of the survey for the dissemination and the reporting of projects involving their own organization and for scientific publications with acknowledgments. Raw data are only shared within the MAB program, the AfriMAB and ArabMAB regional networks. Other requests from external entities to access the data need an exceptional approval from BfN and from the respective MAB regional network.

### Instructions for respondents:

- This questionnaire should be filled out by the BR Manager or other staff member resp. (external) expert designated by him/her.
- Please kindly answer all the questions based on your state of knowledge (scientific data might not be available to answer every question in detail).
- Please note that this is a scientific study and your response should not try to meet any political expectations but enable us to realistically analyze bird monitoring and conservation as a contribution for creating awareness and for filling the knowledge gaps regarding the state and the causes of declining bird species along their flyways.
- Please complete the questionnaire as far as possible in case your BR did not engage in bird monitoring or bird conservation activities yet.
- Please fill one questionnaire per BR and send it back as a pdf file **by 15 July 2017 to afribirds-survey@NABU.de**
- You will need **approximately 20-25 min.** to answer the questionnaire.

---

Name of your BR:

Country of your BR:

Year of UNESCO designation:

---

### Personal Information of the Respondent and Contact for potential Follow-up from Survey Analysts

Affiliated organization:

First name:

Last name:

Function related  
to the BR:  
Manager  
Other:

Gender

Ms

Title (if any)

Mr

Email address:

Mobile phone number  
(incl. country code):

Office phone  
number (incl.  
country code):

## A. Bird Conservation and Monitoring

A.0.1 Are you willing your BR to become one of the AfriBiRds pilot sites for birds monitoring? This relates to issuance of authorizations to run regular bird monitoring at BR, and to collaborate with other stakeholders including national BirdLife partners where applicable:

Yes

No

Don't know

A.0.2 In case your BR will be selected as pilot site within the project, are you interested to continue the pilot bird monitoring programme after the project ends on a regular and long term basis also as a demonstration scheme ? This implies to allocate human resources with transport and monitoring facilities:

Yes

No

Don't know

### A.1 Resources

#### A.1.1 Technical/Financial resources

A.1.1.1 Please indicate the number of current biodiversity monitoring equipments available within your organization:

Binocular(s)

GPS

Camera(s)

Telescope(s)

Laptop(s)

Bird field book(s)

Ring

Mist net

Sound  
recorder

Other(s) types+ no.

A.1.1.2 Please indicate the possible transport means for accessing the core areas in the BR:

Other(s) type(s)+ no.	car	4-wheel car	bus	motorboat
-----------------------	-----	-------------	-----	-----------

A.1.1.3 Please indicate the number of transport equipment available for biodiversity monitoring within your BR and if known hosting capita capacity into brackets:

Other(s) types+ no.	car(s)	4-wheel car(s)	bus(es)	motorboat(s)
---------------------	--------	----------------	---------	--------------

A.1.1.4 Please indicate the following logistic information for the offices of the BR management unit relevant for coordinating bird monitoring in your BR:

Office 1	Office 2	Office 3	Office 4	Office 5	
					Number of permanent staff
					Distance to next core zone in kilometer
					Distance to next core zone in minutes by car
					Access to electricity (Y=Yes, N=No)
					Access to internet (Y=Yes, N=No)
					Workstation available to host partner (Y=Yes, N=No)

A.1.1.5 Please indicate approximately, in percent of your total annual budget, how much financial means comes from...

your own organization (e.g. entrance fee)	national public affiliated organizations	Long-term external partnered programs	Short-term external partnered programs	other sources
--	---	--	---	---------------

A.1.1.6 How much US dollar and in percent of your annual budget is dedicated to bird monitoring?

## A.1.2 Human resources

A.1.2.1 Staff in your BR: indicate approximately the number of permanent staff in your BR dedicated to:

Total	Executive	Administrative	Ranger	Community mgt	Natural resources mgt	Logistic (Reception, driver, cleaner,...)
-------	-----------	----------------	--------	---------------	-----------------------	---

A.1.2.2 Please estimate the current numbers of bird watchers for supporting monitoring in your BR according to their level of expertise and status:

BR staff      community      national      international

High level of expertise

Advanced level of expertise

Basic level of expertise

No expertise

A.1.2.3 Did your staff receive professional monitoring training in the last 5 years on...

...bird?      Yes      No

...biodiversity/ecological?      Yes      No

If YES, please provide further information on the different training (e.g. n° of staff, thematic, provider, duration):

## A.2 Partnerships

A.2.0 Please describe the relationship, if any, of the BR has with BirdLife partner organizations? (List of BirdLife members [HERE](#))

**A.2.1 International:** Please indicate the hosting or participation of your BR in international bird monitoring programmes and initiatives:

Wadden Sea Flyway Initiative (WSFI)

BirdLife Important Bird and Biodiversity Areas (IBAs)

African Waterfowl Census (AfWC)

Critical Ecosystem Partnership Fund (CEPF)

South African Bird Ringing Scheme (SAFRING)

Wings Over Wetlands (WoW)

Migratory Soaring Birds Project

International Waterbird Census (IWC)

World Migratory Bird Day

Bird Atlassing Projects

Other(s)

**A.2.2 National:** Do you know of national bird monitoring programs covering your BR?                      Yes                  No

If YES, please provide further details (e.g. name of program, coordinating organization, when started, frequency, focus, level of involvement of BR):

#### **A.2.3 Local**

A.2.3.1 Are there any national or local organizations involved in bird watching in your BR?                      Yes                  No

If YES, please provide further details (e.g. name of organization, activities, level of involvement of BR):

A.2.3.2 Are you involved in developing awareness and environmental educational programs on birds at the community level?                      Yes                  No

If YES, please provide further details (e.g. name of program, duration, focus, target group, level of involvement of BR):

#### **A.2.4 Research**

A.2.4.1 Do you have partnerships with research institutions to support bird monitoring and conservation in your BR?                      Yes                  No

If YES, please provide further details (e.g. name of research institution, research topic, level of involvement of/in BR):

A.2.4.2 Please name and indicate roughly the distance of the closest university (or tertiary education institution) from your BR zones:

A.2.4.3 Please name ornithological institutions in your country:

## A.3 Monitoring

### A.3.1 Data Collection

A.3.1.1 Please select and name up to 10 key bird species present in your BR (referring to Palaearctic migratory common bird species would be an asset):

Bird species 1:

Bird species 6:

Bird species 2:

Bird species 7:

Bird species 3:

Bird species 8:

Bird species 4:

Bird species 9:

Bird species 5:

Bird species 10:

A.3.1.2 Please provide annual population estimates for the selected key bird species for the last five years and/or indicate the general trends if known:

2016	2015	2014	2013	2012	Change 0= stable / - = decrease / + = increase / ? = unknown
------	------	------	------	------	--

Bird species 1:

Bird species 2:

Bird species 3:

Bird species 4:

Bird species 5:

Bird species 6:

Bird species 7:

Bird species 8:

Bird species 9:

Bird species 10:

A.3.1.3 Please select your 3 most relevant bird monitoring census activities hosted in your BR and give as much details as you can on the following:

Name of census	v	Numbers of v persons involved v			Start	End	Frequency /year
	BR staff	Volunteer	Local community	(yyyy)	(yyyy/unlimited)	(U = 1 count)	
<b>Census 1:</b>							
Method (s) used in the census:	Total count	Time transects	Fixed-width transect	Fixed-width point			
	Distance sampling	Mist netting & ringing	Sound recording	Timed species			
Name census	v	Numbers of v persons involved v			Start	End	Frequency /year
	BR staff	Volunteers	Local community	(yyyy)	(yyyy/unlimited)	(U = 1 count)	
<b>Census 2:</b>							
Method (s) used in the census:	Total count	Time transects	Fixed-width transect	Fixed-width point			
	Distance sampling	Mist netting & ringing	Sound recording	Timed species			
Name census	v	Numbers of v persons involved v			Start	End	Frequency /year
	BR staff	Volunteer	Local community	(yyyy)	(yyyy/unlimited)	(U = 1 count)	
<b>Census 3:</b>							
Method (s) used in the census:	Total count	Time transects	Fixed-width transect	Fixed-width point			
	Distance sampling	Mist netting & ringing	Sound recording	Timed species			

### A.3.2 Data Reporting and Sharing

A.3.1.1 Is your BR using a data-base to archive bird monitoring results ?      Yes      No (paper archive)      No (no census)

If YES, please name the database and the organization holding it (if other than BR):

A.3.2.2 Is your BR responsible for transferring bird census in the data-base ?      Yes      No

If NO, please name the organization doing this task (if any):

A.3.2.3 Is your BR responsible for cross-checking and validating the data on bird monitoring?      Yes      No

If NO, please name the organization doing this task (if any):

A.3.2.4 Please indicate your type of data sharing policies for bird monitoring:

confidential

available on request

web open access

Other

A.3.2.5 Please indicate the organization in your country with whom your BR is sharing bird census data:

A.3.2.6 Please indicate if your BR is sharing data with the following international bird monitoring global data-bases:

World Database of Key Biodiversity Areas

eBird

(Common) Bird Population Monitoring in Africa

Bird Atlas project (e.g. South Africa, Kenya)

West African Bird Database

Avibase

International Waterbird Census Database

Waterbird Population Estimate

BirdTrack

Data.biolovision.net

observation.org

African Raptor Database

Other(s):

#### A.4 Conservation

A.4.1 Please identify the most significant threats for avian diversity in your BR:

Hunting  
Land clearing/encroachment  
Habitat fragmentation/degradation  
Modification of natural ecosystem  
Man-made infrastructure and obstacle  
Noise pollution  
Soil and water pollution  
Decrease of food availability  
Limited water access  
Avian disease and parasites  
Other(s):

A.4.2 Please identify the most significant challenges generating those threats in your BR:

Permissive environmental policies  
Conservation regulations not respected  
Low environmental education and awareness  
Community vulnerability (e.g poverty)  
Domestic biomass harvesting (e.g fuelwood for cooking)  
Poor public governance  
Private economic predations (e.g land grabbing)  
Population growth  
Urbanization  
Uncontrolled solid waste and sewage emissions  
Tourism infrastructures (e.g: golf)  
Industrial or mining activities  
Transport infrastructures (e.g airport)  
Energy infrastructures (e.g power line)  
Water infrastructures (e.g dam)  
Drainage of wetlands  
Deforestation  
Agriculture, plantation extension  
Land use intensification  
Erosion, desertification  
Livestock grazing, trampling  
Invasive species  
Hazard (e.g fire, salinity intrusion)  
Climate extremes (e.g drought, heat/coldwave)  
Other(s):

## B. General Information on the Biosphere Reserve

B.1 Name and status of the organization representing and managing the BR:

Name of organization:

Status:	Other:	Association	NGO	Park	Municipality	Community
---------	--------	-------------	-----	------	--------------	-----------

B.2 Name, scope, status and affiliated ministry from the superior organizations supervising the BR organization:

Name of ministry:	Jurisdictions:	State	Province	Other
-------------------	----------------	-------	----------	-------

Status:	Other:	Directorate	Agency	Coordination of Parks
---------	--------	-------------	--------	-----------------------

Affiliated Ministry: other	Environment	Agriculture	Culture
----------------------------	-------------	-------------	---------

B.3 Human population in your BR:

Population in capita:	Year:	Areas or administrative units taken into account:
-----------------------	-------	---

B.4 Are areas in your BR subject to other designations?

If other(s) specify:	National or Regional Park	Ramsar wetland	Important Bird Areas
----------------------	---------------------------	----------------	----------------------

B.5 Size of your BR (in square kilometers):

Total Area:	Core Area:	Buffer Area:	Transition Area:
-------------	------------	--------------	------------------

B.6 Elevations of your BR (in meters above sea level):

Average:	Lowest:	Highest:
----------	---------	----------

B.7 Please name the TOP 5 key fauna species attractions for tourism in your BR:

Top 2	Top 3
-------	-------

Top 4	Top 5
-------	-------

B.8 Please give approximately the share of each major landscape in the total area of your BR and provide details by ticking the most relevant sub-characteristics:

Landscape type	%	Sub-characteristics (please tick relevant boxes)				
Temperate forest:		Needleleaf	Broadleaf	Mixed	Lowland	Mountainous
(Sub-)tropical forest:		Dry	Moist	Mangrove	Swamp	Lowland
Savanna:		Dry	Moist			
Shrubland:		Temperate	Mediterranean	(Sub)-tropical	Dry	Moist
		Highland	Open	Closed		Lowland
Grassland:		Temperate	(Sub)-tropical	Dry	Moist	
		Lowland	Mountainous	Seasonnally flooded		
Wetlands:		Permanent	Intermittent	Freshwater	Saline/Brackish/Alkaline	
		Lake	Marsh/Pool	Spring/Oases		
Barrenland:		Desert	Mountainous	Sandy	Rocky	
Artificial:		Arable Land	Pastureland	Plantations	Rural Gardens	
		Degraded former forest				
Urban:		Dense	Sparse			

---

## C. Feedback

In case you have a general feedback on the AfriBiRds project or this questionnaire in particular, please share it with us:

---

THANK YOU VERY MUCH FOR YOUR VALUABLE TIME.

Please send back the questionnaire **by 15th of July** to this email address: **africbirds-survey@NABU.de**.

Once completed, we will share a report with the results of this survey among the responding Biosphere Reserves.

---

AfriBiRds project contacts for further questions:
